DETAILED ACTION

This office action is in response to the amendment and remarks filed 2/3/06.

Allowable Subject Matter

1. Claims 23-49 are allowed.

With respect to claim 23, the following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor makes obvious the combination set forth in the independent claims, and especially does not show "a support means connected to the first cover means for providing support to the control element, said support means being accommodated interiorly within the combustion chamber cover ...and said support means being substantially concentrically oriented relative to a centerline of the combustion chamber", in combination with the other claim limitations.

Previously objected claims 25, 28, 32, 33 and 36 have been re-written into independent form as new claims 45-49.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
